Product description

High quality glue for both permanent and temporary adhesion. Suitable to glue paper, cardboard, wood, textile and various types of plastic.

Applications

Paper	Cardboard
Wood	Textile
Cork	Leather
Locks	Garden tools
Various types of plastic	

Product characteristics

Suitable to glue large surfaces
Fast drying
User-friendly
Spray pattern about 10 centimetre wide

Physical and Chemical Characteristics

Contents	:	400 ml
Basis	:	Synthetic resin
VOC-content	:	Approximately 83% w/w
Colour	:	Transparent white
Scent	:	Characteristic
Yield	:	1,2 g /sec
Relative density at 20°C	:	0,75 g/ml
Vapour pressure at 20°C	:	3 to 4 bar
Heat resistant	:	to 80°C

Usage

Before use, carefully read the directions on the packaging and act accordingly.

The surface should be clean, dry and free of grease. The aerosol should have room temperature. Best processing temperature 5 to 30°C . Before use, shake the aerosol. Distance to the surface to be treated approximately 25 to 30 centimetre.

Apply glue in an equal layer.

For a permanent adhesion treat both parts to be glued, allow to dry 15 to 20 minutes and firmly press together.

For a temporary adhesion treat one of the parts to be glued, allow to dry for 5 to 10 minutes, and firmly press together.

When treating porous surfaces, apply several layers.

After use, clean the valve (turn aerosol upside down and press the nozzle for approximately 5 seconds).
